

Lenin on how Innovation Under Capitalism Leads Workers to Ruin

Under capitalism the "release" of the labour of millions of miners engaged in extracting coal will inevitably cause mass unemployment, an enormous increase in poverty, and a worsening of the workers' conditions.

And the profits of this great invention will be pocketed by the Morgans, Rockefellers, Ryabushinskys, Morozovs, and their suites of lawyers, directors, professors, and other flunkies of capital.

Vladimir Lenin,
A Great Technical
Achievement.
