

Lenin on the Proletarian State

“
**The working people
need the state**

only to **suppress the resistance
of the exploiters**, and only the
proletariat can direct this
suppression, can carry it out.

For the **proletariat is the only
class that is consistently
revolutionary**, the only class
that can unite all the working
and exploited people in the
**struggle against the
bourgeoisie, in completely
removing it.**

- V.I.Lenin,
The State and Revolution
